Machinery & Equipment Goods Survey: Operational recommendations

International Comparison Program
World Bank

ICP Regional Coordinators Meeting
Washington - DC, April 20-21, 2011

Presentation Outline

- Background
- Results from the pilot survey
- Time line for the main M&E survey
- Software solutions for data collection
- Validation of Equipment Goods data
- Way Forward

Background

- Initial list of items in October 2010
- Pre-surveys in selected countries
- Pre-surveys ongoing in Africa and Latin America
- In March China was invited to join
- Internet pre-survey by the Global Office
- The main survey will start soon

Results from the pilot survey

- Latin America has submitted preliminary results
- These results are being analyzed
- Awaiting results from other regions
- This will contribute to the finalization of the items list

Time line for M&E survey

	2011						
Time line for M&E survey	Jan	Feb	Mar	Apr	May	Jun	Jul
Item list							
Analyze LAC pilot survey data			■	■			
Input to the final OECD-Eurostat list			■				
Analyze Africa pilot data				■	■		
Reconciliation of findings					■	■	
Finalize the list of items					■		
Software							
Customize the Data Tool for pricing			■	■			
Web data collection solution			■	■	■		
ICP 2005 DCF and DVM to Excel 2007				■			
Select platform for price collection							■

Time line for M&E survey

	2011				2012					
Time line for M&E survey	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun
Data Collection										
Survey all countries - Except for Caribbean	■	■	■							
Survey for for Caribbean						■	■	■		
Data Validation			■	■	■	■	■			
Annual average prices							■	■		
Preliminary PPP									■	■

Software solutions

- Data Tool
- Web based data collection
- GO Replica of the Data Tool
- Which solution fits best the countries situations?

Validation of M&E data

- Similarities with Household Consumption items
- Specific steps for M&E
- Country level validation
- Regional level validation
- Global level validation

Way Forward

- Finalization of the item list
- Testing the software solutions
- Parameterization of software for data collection
- Survey Operational Materials
- Live Demo – Questions and answers

Thank you…
