Germany’s Top Contributions Paid-In to IBRD/IDA TFs, FIFs, and IFC TFs, FY14-18 (US$ millions)

- Contributions paid-in is the amount of contribution received by the Bank in the form of cash or promissory notes. All contributions paid-in (cash and promissory notes, net of certain discounts) are reported based on historical values (if not converted) using the date of receipt. For cash receipts, the foreign exchange value is posted when the FX conversion has been effected. It may also include contribution transfers from other trust funds. Minor double counting may occur. Amounts to donor balance and holding accounts have been excluded.
- All figures exclude the Advanced Market Commitment (AMC) FIF that is not part of the TF pool.
- IFC contribution paid-in consist of cash and promissory notes receipts for Advisory/Investment TFs.
- Some numbers may not total due to rounding.
- Number of active IBRD/IDA trust funds excludes parallel funds that were created under the new cost recovery policy.
Germany and the International Development Association (IDA)

The historic and innovative IDA18 replenishment, which dramatically scales up the resources available for the fight against extreme poverty, could not have been achieved without Germany’s strong support. IDA18 delivers strengthened policy commitments on FCV, climate change, gender, governance and institution building, and jobs and economic transformation. IDA18 offers excellent value for money, with every $1 in partner contributions generating about $3 in spending authority. This is one of the most concrete and significant commitments to date on the Addis Ababa Action Agenda—critical to achieving the 2030 Sustainable Development Goals. For IDA18, Germany was the 4th largest contributor to IDA on a grant equivalent basis.
