

Join GFDRR and the Global Program
for Safer Schools for the Workshop
and Launch of the Publication:

A ROADMAP FOR SAFER SCHOOLS

On the road to make school facilities
and the communities they serve
more resilient to natural hazards

JANUARY 30-31 2017
LONDON, UK

GPSS, in collaboration with its partners, will host a 2 day event focused on the integration of risk considerations into education infrastructure. The workshop will include five sessions, following the steps in the Roadmap, as well as a special session on Ensuring safety and quality of schools in post-disaster contexts. Case studies from Japan, Nepal, New Zealand, Peru, and the East and Central Asia region will be presented by experts from Arup, Applied Technology Council, the World

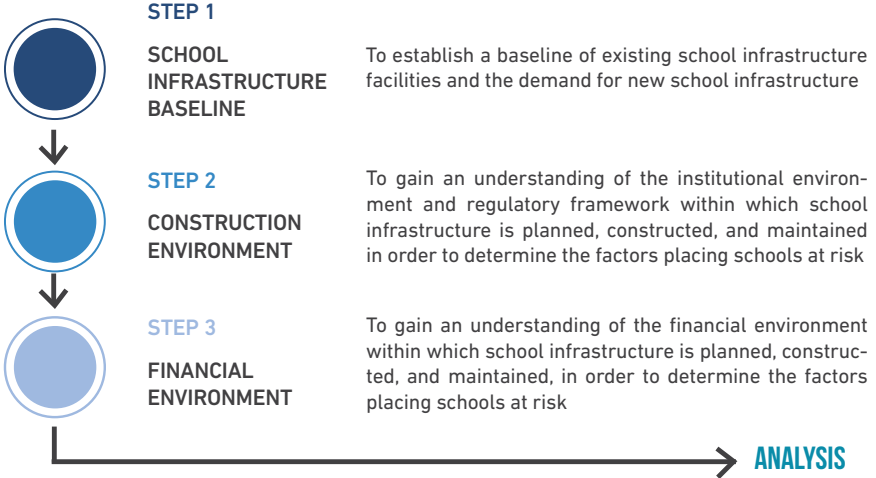

Bank Group, University College London, and University of Los Andes.

The target audience are our clients from the Ministries of Education and other ministries who are involved in school construction and retrofitting. The following countries have been invited to participate: Armenia, Dominican Republic, El Salvador, India, Indonesia, Jamaica, Kyrgyz Republic, Malawi, Mongolia, Mozambique, Nepal, Pacific Islands, Peru, Philippines, Turkey.

Roadmap for Safer Schools

A Road Map to promote a long-term systematic approach to improving the safety of school infrastructure at risk from natural hazards.

DIAGNOSIS

To provide a step-by-step guide to quantifying the potential damage and losses to school infrastructure due to adverse natural events

To recommend investment scenarios to Ministries of Education that integrate safety into both existing and new school infrastructure

To implement investment programs to improve the resilience of schools

ANALYSIS
