Guided by its climate targets, the World Bank Group (WBG) is committed to increasing **systemic climate action** at the country level.

The **NDC Support Facility** (NDC-SF), a WBG-managed trust fund, backs this commitment by financing WBG support to clients for implementing and enhancing NDCs.

Its activities are undertaken in close coordination with and in support of the **NDC Partnership** and its members. More info: [www.ndcpartnership.org](http://www.ndcpartnership.org)

The NDC-SF supports the **Coalition of Finance Ministers for Climate Action** which promotes national climate action, especially through fiscal policy and the use of public finance. More info: [www.cape4financeministry.org](http://www.cape4financeministry.org)
NDC Support Facility Lesson Learned:

Mainstream NDC into National Policies, Strategies and Legislation

Moçambique

**Outputs & Impacts**
- Developed NDC Implementation Roadmap for key adaptation strategies and targets
- Implemented a Greenhouse Gas (GHG) inventory to monitor NDC mitigation targets
- Prepared needs assessments at the central and provincial levels to quantify targets and strengthen indicators
- Convened government and international development partners to mainstream NDC measures into the government’s Five-Year Plan

**Support Areas, Thematic Pillars and Sectors**
- Monitoring & Evaluation
- Policy, Strategy & Legislation
- Cross-sectoral Coordination
- Agriculture
- Environment and Natural Resources

**Findings**
- Integrating NDC priorities and commitments into national development strategies and action plans strengthens government buy-in
- NDC Implementation Roadmap is instrumental for mobilizing Ministry of Economy and Finance to prioritize NDC-relevant investments
- Countries’ electoral processes can be leveraged to raise the profile of NDC planning and implementation by increasing political and public awareness of climate change issues
