## 2008

*World Development Report 2008: Agriculture for Development*. Washington, DC: World Bank.

In the 21st century, agriculture continues to be a fundamental instrument for sustainable development and poverty reduction. WDR 2008 concludes that agriculture alone will not be enough to massively reduce poverty, but it is an essential component of effective development strategies for most developing

countries.

## 2003

*World Development Report 2003: Sustainable Development in a Dynamic World.* Washington, DC: World Bank.

Without better policies and institutions, social and environmental strains may derail development progress, leading to higher poverty levels and a decline in the quality of life for everybody, according to this report.

*Land Policies for Growth and Poverty Reduction,* Washington, DC: World Bank, 2003.

This report said that strengthening poor people's land rights and easing barriers to land transactions can set in motion a wide range of social and economic benefits.
