INTRODUCTION

The World Bank Law Resource Center (LRC) is pleased to support World Bank Law, Justice, and Development Week, 2017. This LJD Week Selected Readings on Gender, Law, and Development highlights resources from the World Bank Group and other sources which have been published.

The list covers materials written on selected focus areas, such as: creating an enabling environment for women’s economic empowerment, women’s ability to exercise their rights, fragility, conflict and violence, and international financial institutions’ gender-related development strategies.

When possible, links to the full text of a document have been included. Many of the publications are publicly available, but others may only be accessible to World Bank Group (WBG) staff. Due to intellectual property rights requirements, some material is only available commercially or through university or other local libraries. We encourage you to share LJD Week Selected Readings on Gender, Law, and Development with others working on these topics.
