Recommendations for improving Tertiary education system

Developing mid-term strategy

I. Expanding Equitable Access
- Piloting the first e-education by 2015
- Opening enrollment in 22 vocational programs for PTP (professional technical profile) by 2017
- Increasing share of enrolment of female students up to 50% by 2020
- Increasing gross tertiary enrolment rate up to 20% by 2020

II. Improving Governance System
- Formation selection rules of Rectors by 2015
- Developing and approving comprehensive “Tertiary Education Law” by 2017
- Admissions of students by private HEIs by 2020

III. Modernizing quality assurance
- Launching the first quality enhancement cells in HEIs by 2015
- Laying out in the STC to perform the functions of an independent agency for quality assurance in accordance with European standards

IV. Reforming Financing Systems
- Increasing the share of public financing in total public budget on education up to 10% by 2017 and 20% by 2020
- Link the proportion of public expenditure on wages of teachers and student stipends in accordance with international standards

V. Fostering innovation and improving market linkages
- Developing interrelationship between HEIs and employers and integration of labor market data in MISHE by 2018
- Allocating the first grants from the Academic Innovation Fund to encourage partnership and innovation by 2015
- Developing and implementing modern Management Information System of Higher Education (MISHE) by 2018
- Increasing the share of public financing in total public budget on education up to 10% by 2017 and 20% by 2020
- Linking the proportion of public expenditure on wages of teachers and student stipends in accordance with international standards
