Sustainable Development Goals (SDGs) & Infrastructure Gap

●SDGs

Goal 9

Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

Target 9.1

Develop quality, reliable, sustainable and resilient infrastructure, including regional and trans border infrastructure, to support economic development and human well-being, with a focus on affordable and equitable access for all

●Global Infrastructure Funding Gap

Estimated \$2-3 trillion annually up to 2030 (UNCTAD)

Quality Growth & Quality Infrastructure Investment

● Development Cooperation Charter (GOJ)

"Quality growth" and poverty eradication through such growth

Such growth is *inclusive* in that the fruits of growth are shared within society as a whole, leaving no one behind. It is *sustainable* over generations in terms of consideration to, among other aspects, harmony with the environment, sustained socioeconomic growth, and addressing global warming. And it is *resilient*, able to withstand and recover from economic crises, natural disasters and other shocks.
