Information

- ECLAC looks for the official data published by the countries in different web sites, like a:
 - CEPALSTAT –Management System.
 - UNDATA
 - Web site of the National Statistical Offices or Central Bank.
 - Databank of World Bank
 - ECCB data.
 - and other.

Prices

- Most of the countries do not publish the CPI index using the Classification of Individual Consumption According to Purpose –COICOP- aggregations
 - In those case we have to request more detail of the published information
- In other case, some countries have changed the base year between 2005-2017 and they do not publish the continuous series of the prices indicators (16% of the total)
- The countries will send us the detail of the information after to complete the collect data for this round (middle of 2018)

National accounts

- The countries that publish the GDP by expenditure approach, they have two years delay, and they do not give all of details that ICP interim process need
- Most of the countries (almost all countries) do not publish the detail of the GDP by expenditure approach, in those cases will request to ask for more detail of their information
- There are some countries that they do not have the GDP by expenditure approach, in those case we have to give technical support (through ECLAC team or external consultant)
- The first meeting of National Account issues will be at the end of April 2018

Activities

- In the last meeting at the end of June 2017, we asked to the national teams of CPI area about the indexes for 2005-2016
 - They will send us the data at the mid of June 2018
- In April 2018 we will present and explain the characteristics about the National Accounts information to the national teams
- According the data collected, ECLAC should focus effort on National Account in most of the countries
- The timetable of this activities will start in the second quarter of 2018
