Source: World Bank.

Notes: PPP = purchasing power parity. World Bank forecasts are frequently updated based on new information. Consequently, projections presented here may differ from those contained in other Bank documents, even if basic assessments of countries' prospects do not differ at any given moment in time. Country classifications and lists of Emerging Market and Developing Economies (EMDEs) are presented in Annex Table 1. BRICS include: Brazil, Russia, India, China, and South Africa.

<sup>1</sup> Aggregate growth rates calculated using constant 2010 U.S. dollars GDP weights.

2. GDP growth values are on a fiscal year basis. Aggregates that include these countries are calculated using data compiled on a calendar year basis. Pakistan's growth rates are based on GDP at factor cost. The column labeled 2017 refers to FY2016/17.

4. World trade volume for goods and non-factor goods

4. World trade volume for goods and non-factor services.
5. Simple average of Dubai, Brent, and West Texas Intermediate

5. Simple average of Dubai, Brent, and West Texas Intermediate. For additional information, please see [www.worldbank.org/gip](http://www.worldbank.org/gip).

For additional information, please see [www.worldbank.org/gdp](http://www.worldbank.org/gdp).

\* The U.S. forecasts do not incorporate the effect of policy proposals by the new U.S. administration, as their overall scope and ultimate form are still uncertain. However, simulations indicate that the large reductions in corporate and personal income taxes suggested by the new administration could—if fully implemented and without consideration of any other policy changes—increase both U.S. GDP growth and global growth above baseline projections in 2017 and 2018. See the “Risks to the outlook” section of Chapter 1 for further details.

Source: World Bank and Haver Analytics.

a. Aggregate growth rates calculated using constant 2010 U.S. dollars GDP weights.

b. Year-over-year quarterly growth of not-seasonally-adjusted real GDP, except for the United States, Ecuador, and Tunisia, where only seasonally-adjusted data are available. Year-over-year quarterly growth in the United Kingdom is calculated using seasonally-adjusted real GDP.

Regional averages are calculated based on data from following countries.

East Asia and the Pacific: China, Indonesia, Malaysia, Mongolia, Philippines, Thailand, and Vietnam.

Europe and Central Asia: Albania, Azerbaijan, Belarus, Bulgaria, Croatia, Georgia, Hungary, Kazakhstan, FYR Macedonia, Poland, Romania, Russia, Serbia, Turkey, and Ukraine.

Latin America and the Caribbean: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Paraguay, Peru, and Uruguay.

Middle East and North Africa: Bahrain, Egypt, Jordan, Qatar, Saudi Arabia, and Tunisia.

South Asia: India and Sri Lanka.

Sub-Saharan Africa: Botswana, Kenya, Nigeria, and South Africa.

c. Annual GDP is on fiscal year basis, as per reporting practice in the country.

d. GDP data for Pakistan are based on factor cost. For Bangladesh, Nepal, and Pakistan, the column labeled 2017 refers to FY2016/17. For India, the column labeled 2016 refers to FY2016/17.
