Uzbekistan Energy Efficiency Facility for Industrial Enterprises

**Project Objective:**
To improve energy efficiency in industrial enterprises by designing and establishing a financing mechanism for energy saving investments.

**Project Components:**
- Enhancing energy efficiency capacity of:
  - Industrial enterprises;
  - Banks;
  - Industrial Associations;
  - Other stakeholders interested in investing in energy efficiency projects.

**Main Activities:**
- Increasing the level of knowledge, experience and skills of specialists at industrial enterprises in the field of energy-efficient production;
- Raising awareness of the public and private sectors, civil society and the general public about the benefits of energy efficiency investments;
- Improving statistical reporting in the field of energy consumption and energy efficiency.

**Credit Line for Participating Banks:**
- Implemented directly by the participating commercial banks;
- IDA Credit funds are distributed in equal shares among the participating banks and on-lended to industrial enterprises for purchasing energy efficient equipment.

**Participating Banks:**
- Hamkorbank
- Uzpromstroybank
- Asaka bank

**Financing:**
- First credit line: $US 25 mln.
- Second credit line: $US 100 mln.
- Additional financing

**Number of Sub-Projects:**
- Total number of projects: 81
- Sub-projects for a total value of $US 34 million:
  - 37 industrial sub-projects
  - 44 sub-projects for a total value of $US 123.6 million

**Projects Implemented:**
- In such energy-intensive sectors as:
  - Mining
  - Oil and Gas
  - Chemical
  - Electrical power
  - Construction
  - Materials
  - Food and processing
  - Oil and Gas

**Estimated Savings:**
- Total estimated savings:
  - 539 million KW/h of electricity and 252 million cubic meters of natural gas
- 167 million KW/h of electricity and 54 million cubic meters of natural gas
- 372 million KW/h of electricity and 198 million cubic meters of natural gas
