Africa Centre of Excellence for Infectious Diseases of Humans and Animals-ACEIDHA

University of Zambia

ZAMBIA

Professor Aaron S. Mweene
Centre Leader, ACEIDHA

Professor Bernard M. Hang’ombe
Deputy Centre Leader
Vision
To become a leading centre for generating knowledge and skills for infectious disease prevention and control

Mission
To conduct high level training through cutting edge research

Core values
Excellence
Innovativeness
Integrity, Collegiality
Transparency, Equity
Research Areas (Thematic Themes)

• Emerging and Zoonotic Viral Diseases (Ebola virus disease, Marburg disease)
• Emerging and Zoonotic Bacterial Diseases including Antimicrobial Resistance (Anthrax, Plague)
• Neglected Tropical Diseases (Filariasis)
• Vector Borne zoonotic Diseases (Trypanosomiasis)
Innovation

Commercialization of research/Startups:
- Availability of Biological materials for Development of new life science products (Novel viruses and Bacterial microorganisms have been identified)
• Interested Collaboration Area
  Increase the capacity of ACEIDHA to deliver quality education and conduct research
• Emerging and Zoonotic Viral Diseases
• Emerging and Zoonotic Bacterial Diseases including Antimicrobial Resistance
• Neglected Tropical Diseases
• Vector Borne zoonotic Diseases
Thank you for your attention
