**Key Dates:**
Signed: December 23, 2014
Completed: November 22, 2015
Duration: 11 months
Value: RON 1.75 million (US$ 0.53 million)

**Key Partner:** Inter-community Development Association ITI Danube Delta

**Objectives:** To assist through technical assistance for time-bound, initial capacity building of the Danube Delta Inter-Communal Development Association (DD ADI) to build operational foundations to coordinate and support the Integrated Territorial Investments (ITI) instrument based on the Danube Delta Integrated Sustainable Development Strategy. The ITI is a new EC instrument and intended to draw on resources from different EC-funded operational programs.

The project has three main components: (i) developing efficient and effective functioning conditions for ADI ITI DD by supporting the development of human, procedural and logistic resources necessary to observe the ITI requirements during 2014-20; (ii) developing the capacity of the ADI ITI DD to support the ITI beneficiaries in the process of preparing and implementing projects to facilitate absorption and efficient use of EU structural and investments funds in the DD area during 2014-20; (iii) supporting visibility for ADI ITI DD and project promotion.
