

# JICA's cooperation on aging in Thailand

May 31, 2016

Shintaro Nakamura  
Senior Advisor on Social Security  
Japan International Cooperation Agency (JICA)

- In Thailand, with the Ministry of Public Health and Ministry of Social Development and Human Security as our main partners, we have been implementing technical cooperation projects on aging.

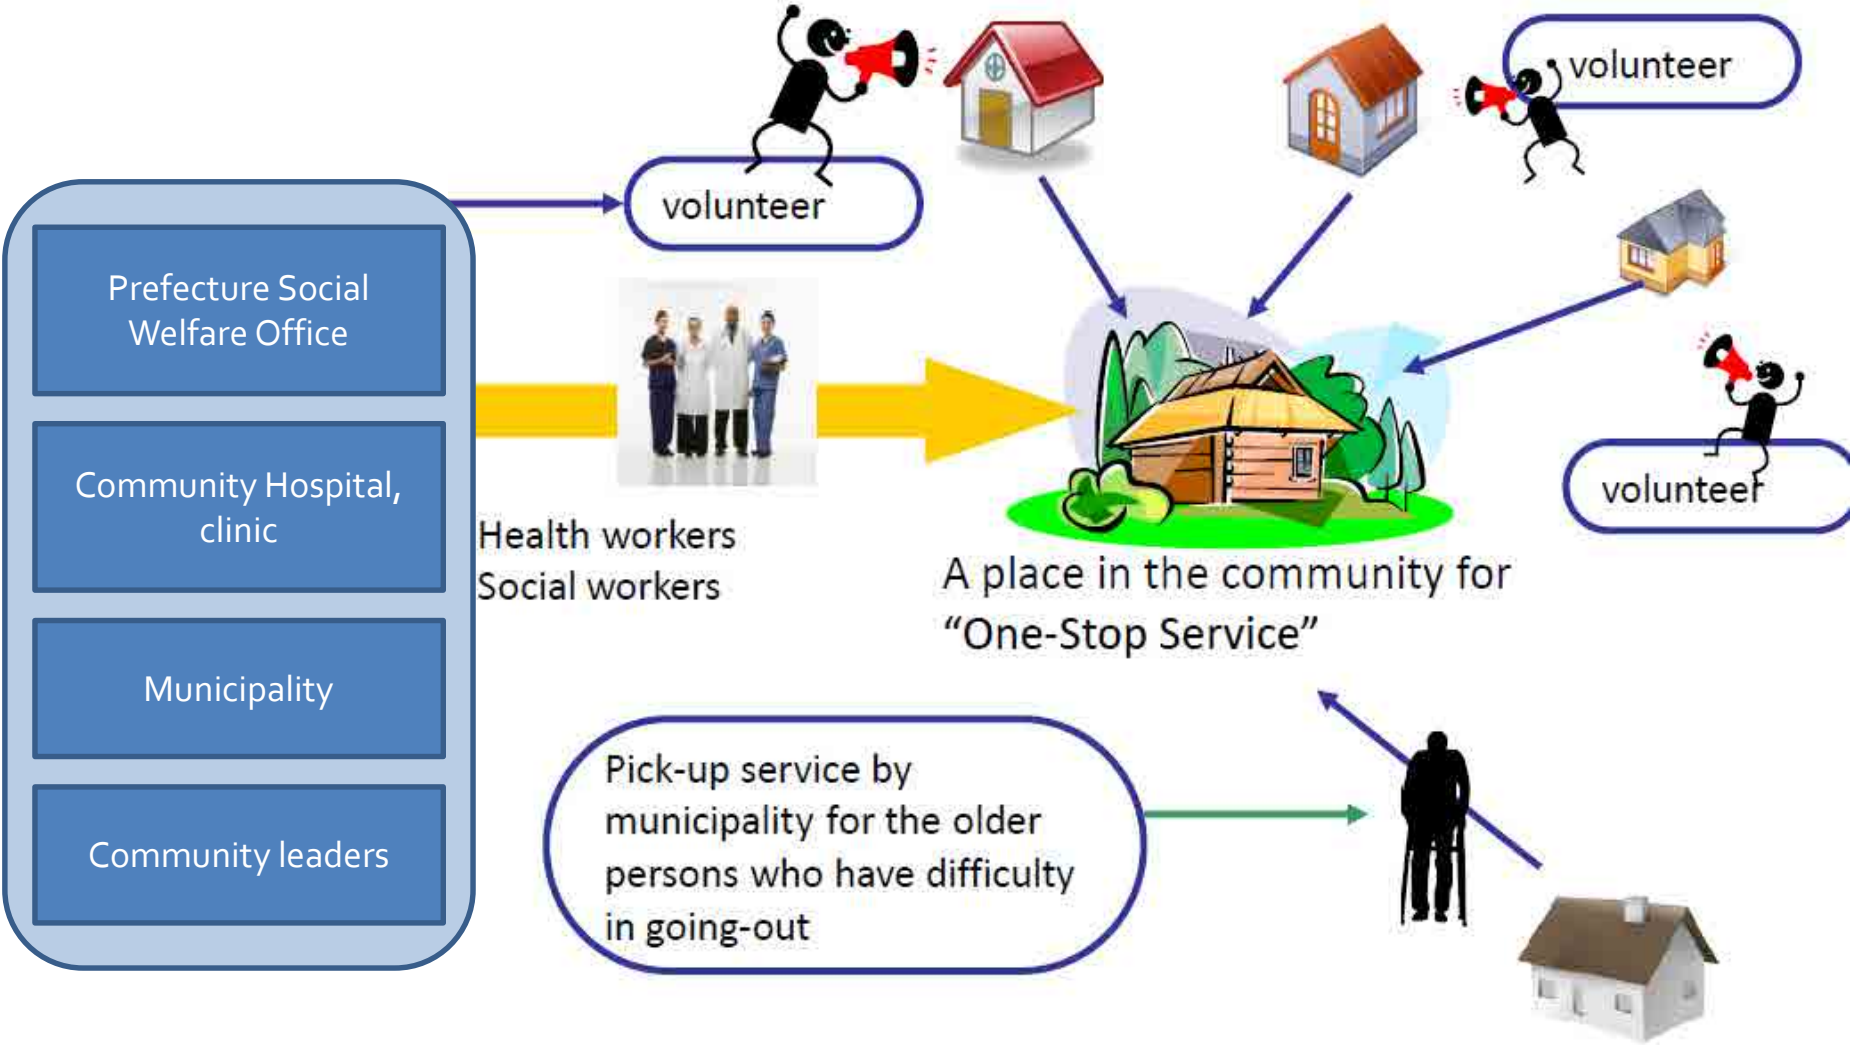

# Projects

- CTOP (2007-2011)
  - “Community Health Care and Social Welfare Services Model for Thai Older Persons”
- LTOP (2013-2017)
  - “Project on Long-term care service development for the frail elderly and other vulnerable people”

# Mobile one stop service developed in CTOP

# Mobile one stop service

# LTOP

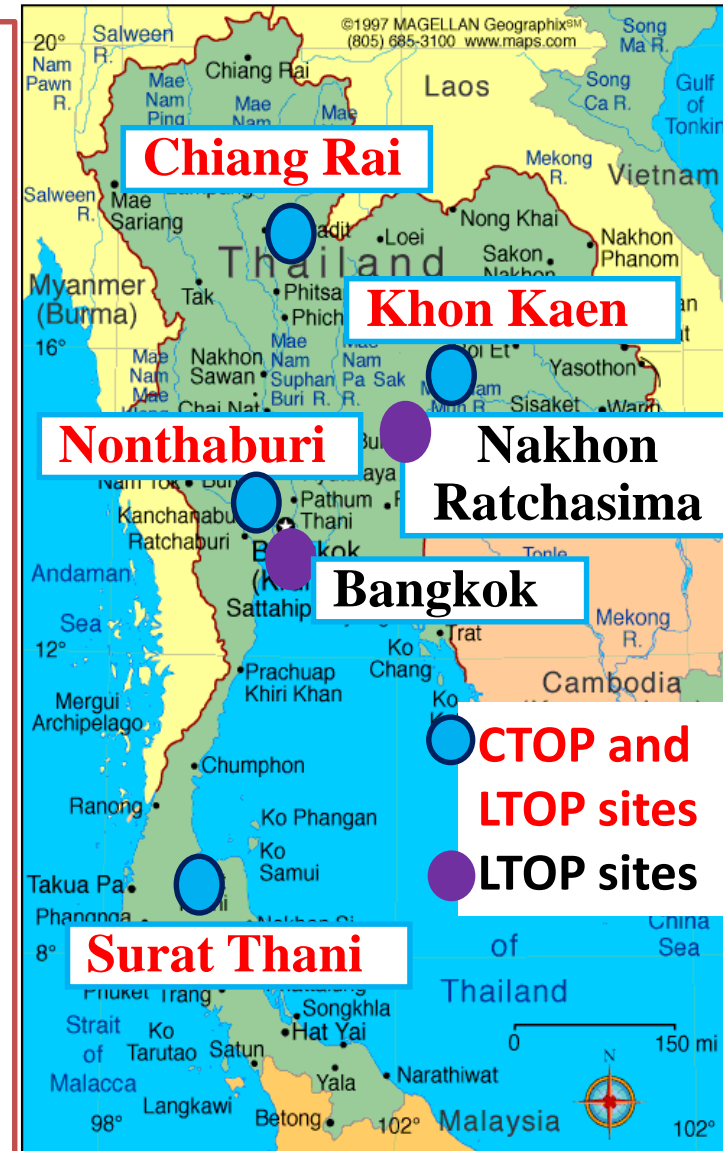

**【Period】** 14 January 2013 ~ 31 August 2017 (4 years 8 months)

**【Purpose】**

Policy recommendations on the long-term care for the elderly are accepted by the relevant ministries and organizations.

**【Outputs】**

1. Policy recommendations on the long-term care for the elderly are developed, based on the evidence from the pilot projects and Thai and Japanese knowledge and experiences.
2. “Model Services” are developed and implemented in an effective and sustainable manner at pilot project sites.
3. Training programs of the care workers and coordinators are developed.

# Assessment and care planning in LTOP

# Home visits in LTOP

# A model being developed in LTOP
