Early Years Fellowship – Cohort Two
Terms of Reference FY2020
Location – Maputo, Mozambique

Introduction
The World Bank Group’s Early Learning Partnership (ELP) provides resources and technical assistance to support early childhood development (ECD) and early learning around the world. Investing in early childhood is critical to create opportunities for all children to grow into healthy, educated, and capable people and to address inequality and improve outcomes later in life. Governments are increasingly requesting support to increase investments in the early years and improve their delivery of early childhood services. ELP addresses this demand by helping governments bring to scale quality early childhood opportunities, especially for disadvantaged children. ELP supports governments through a combination of analysis, technical assistance, and program funding provided on a competitive basis to stimulate innovation and respond to specific country needs, working in partnership with donors, impact investors, and civil society organizations.

The Early Years Fellowship was launched in 2017 to support governments and World Bank teams to scale up investments in the early years. An inaugural cohort of 20 young African professionals worked with World Bank teams from 2017-2019 and graduated in June 2019. The program is expanding globally and a second cohort of 20 Fellows from around the world is currently being recruited.

Early Years Fellowship
The Fellowship has a multi-sectoral approach to promote early childhood development (ECD) across education, health, nutrition, social protection and other relevant sectors. The objectives for the Fellowship include:

1. Improve the quality of early years analytical work and program implementation in countries by increasing the number of experienced professionals available to work with country governments and World Bank teams;
2. Build technical and professional capacity of local young professionals to respond to client demands, reducing reliance on international technical assistance and ensuring more sustainable and contextually-specific responses at country level; and,
3. Raise the profile of ECD among young professionals, demonstrating it can be a viable and prestigious field of work.

Fellows should ideally be based in-country or willing to relocate. Each Fellow will have a work program focused on one or two countries and across sectors.

Fellows will spend 20 percent of their time enrolled in a professional development program designed to strengthen Fellows’ technical skills in ECD and their understanding of World Bank operations. The professional development program will include two networking summits, a capstone project and various trainings and learning experiences on ECD themes and topics.

\[1\] In case of relocation, no compensation will be provided. The applications should have the necessary permission/visas/work permits to live and work in the country they are applying for.
Fellows will be hired as Short-Term Consultants\(^2\) (STC) for one year, with a second-year renewable, based on performance and continued work program demand. Selection and compensation are competitive.

**Required Profile**
The ELP is looking for candidates with the following profile to participate in the Early Years Fellowship:
- Citizen/ national of Mozambique, Madagascar, Seychelles, Mauritius or Comoros.
- Early to mid-career professional between the ages of 25-40 years with demonstrated expertise and/or commitment to advancing ECD in their home countries.
