## **Country Assistance Strategies**

The list is based on a similar list compiled by the World Bank's Secretary's staff. Introduced in 1990 and replaced by the Country Partnership Framework (CPF) in 2014, the CAS is an overview of each borrowing country's current economic situation and contains a discussion of its development challenges, prospects, and project-planning. CASs were often initially published as part of project documents but later on were published as standalone documents.

### **Staff Newsletters**

Resources have been selected from the World Bank Group's <u>Documents & Reports website</u>. The World Bank has produced a staff newsletter since 1947. The publication changed its name twice: from International Bank Notes to Bank Notes in 1971 and then to Bank's World in 1982. The newsletter moved online in 2000 and physical publication ceased. In addition to offering news relating to Bank operations and country development, the newsletters were intended to foster a sense of community among staff by highlighting social events, marriages and births, the arrival of new staff, recreational events, favorite cooking recipes submitted by staff, and features on different aspects of staff's home country and culture.
