**Notes:**

a/ "Fragile Situations" have: either a) a harmonized average CPIA country rating of 3.2 or less, or b) the presence of a UN and/or regional peace-keeping or peace-building mission during the past three years. This list includes only IDA eligible countries and non-member or inactive territories/countries without CPIA data. It excludes IBRD only countries for which the CPIA scores are not currently disclosed. This is an interim list and the World Bank will continue to work on improving and refining our understanding of fragility. This definition is pursuant to an agreement between the World Bank and other MDBs at the start of the IDA 15 round in 2007 (only the ADB & AfDB use CPIA ratings).

b/ "Core" fragile states are those states with a WB CPIA rating of 3.0 or below. "Marginal" fragile states have scores greater than 3.0 but less than 3.2. These are included purely on the basis that these categories define certain HR benefits within the Bank and are for internal use only. *Certain countries are included on this list for this reason only as they otherwise would not meet the criteria for inclusion.* For more detail, please refer to link below:

[FY10 FS Premium List that HRS publishes on the OAB web page.](#)

c/ Specifically defined as the presence of a UN and/or regional (e.g. AU, EU, OAS) peace-building and political mission in this country in the last three years. [sources: UN DPKO website, AU website, EC website].

d/ Specifically defined as the presence of a UN and/or regional (e.g. AU, EU, OAS, NATO) peace-keeping operation in this country in the last three years, *with the exclusion of border monitoring operations.* [Sources: UN DPKO website, AU website, EC website, OSCE website].

e/ These acronyms refer to IDA Exceptional Allocations, which are determined independently - PC is post conflict, RE is re-engaging and NCIR is not currently IDA recipient (normally on the basis of arrears status).
