255-CO-21 A scene in the Cauca Valley of Colombia, showing mixture of industry and agriculture. Industry and agriculture in the Valley have expanded so rapidly that demand for power has grown faster than was anticipated, making it necessary for the authorities to accelerate their power development program.

The WORLD BANK has helped finance the development of electric power projects that have added or will add nearly one million kilowatts to the power systems serving the areas of Bogota, Cali, Medellin, Manizales, Bucaramanga and Cartagena.
