My name is and I am working for Economic Development Initiatives on behalf of Word Bank. EDI is a Bukoba based company and is specialized in conducting development related surveys. We are here to conduct a baseline survey on agricultural issues in selected communities in Tanzania. The purpose of this survey is to learn about how much actual labor time invested by households in farming activities, we will also look on how land and other inputs are utilized by households. You have been chosen to be a participant in this important study. We expect that the results from this survey will help on designing better programs and policy to meet the needs of agricultural activities in Tanzania. If you agree to participate in this study we will ask you detailed questions about agriculture. We will also measure all plots that belongs to your household or all other plots that your household cultivate or will cultivate in this masika season. Additionally, your household will be visited or contacted through the phone for 21 weeks from now up to June to make follow up on agriculture. These discussions will be taking 20 to 30 minutes. We will give you a phone and 4000 thousand for voucher per month throughout these interview. Please note that your confidential answers will not affect you in any way, so feel free to share your honest experiences and opinions on agriculture. Your participation in this study will be totally confidential. Your name and any other identifying information will be accessible only to the researchers and will never appear in any sort of report that might be published. I expect that the discussion will continue for about half an hour, and then we will take time to measure all plots listed. Apart from time, no any other cost resulted from your participation in this survey. It is also important to understand that your participation in this study is completely voluntary, If you choose to take the survey, you are free to refuse to answer any of the questions that may make you uncomfortable and you also have the option to end the interview at anytime. You can also stop me at anytime to clarify the questions or ask me to repeat something if you don't understand. Your decision to participate or not participate will not affect you in any way as the study is solely for research purposes. We realize that your time is valuable and that it may not be easy for you to devote this much time to our survey, however we are very grateful if you participate and we would like you to know that your participation is greatly appreciated and is extremely valuable to the success of our efforts to develop agricultural policies and procedures to improve the lives of Tanzanians and people in other low-income countries. At this time, do you want to ask me anything about the survey? Even if you have any questions later on, you can always contact us through the village leader in your village or contact us through the address below: EDI Ltd. P.O. Box 393, Kibeta, Bukoba, and Kagera Region Tel: (0)28 2220059. Do you understand all the conditions and willingly to take a part in this survey?
