We visited your household and conducted a survey in January 2014 and you were also visited or called 25 times on a weekly basis up until July. You were informed about this follow up during these visits. I expect that this discussion will continue for about one hour.

IF NEW HH: My name is [intvwr] and I am working for Economic Development Initiatives on behalf of Word Bank. Your participation in this study will be totally confidential. Your name and any other identifying information will be accessible only to the researchers and will never appear in any sort of report that might be published.

Apart from time, no any other cost resulted from your participation in this survey. It is also important to understand that your participation in this study is completely voluntary, If you choose to take the survey, you are free to refuse to answer any of the questions that may make you uncomfortable and you also have the option to end the interview at anytime. You can also stop me at anytime to clarify the questions or ask me to repeat something if you dont understand. Your decision to participate or not participate will not affect you in any way as the study is solely for research purposes.

We realize that your time is valuable and that it may not be easy for you to devote this much time to our survey, however we are very grateful if you participate and we would like you to know that your participation is greatly appreciated and is extremely valuable to the success of our efforts to develop agricultural policies and procedures to improve the lives of Tanzanians and people in other low-income countries.

At this time, do you want to ask me anything about the survey? Even if you have any questions later on, you can always contact us through the village leader in your village or contact us through the address below: EDI Ltd. P.O. Box 393, Kibeta, Bukoba, and Kagera Region Tel: (0)28 2220059.
