Expected Economic Missions: November 1968 - April 1969

1. Attached, for your information, are the schedules of the expected economic missions during the period November 1968-April 1969. The number of missions by Area Departments and staffing position, their timing and degree of commitment, and the personnel required to complete missions, are shown in Summaries A, B, and C respectively.

2. The format is arranged according to the new organization of the Area Departments, but the schedules were prepared by the five Area Departments before the reorganization became effective. The staffing of the missions does not, therefore, take into account any of the consequent changes that may occur.

Forecast of Economic Missions - October 1968 to June 1969

I attach a revised list of economic missions forecast by the Western Hemisphere Department for the period ending June 30, 1969. As always, this is very tentative, the more so in this case as several of the positions for country economists in the Department are presently unfilled. Mission chiefs for several of the more important missions proposed (Peru, Venezuela and probably Trinidad - also possibly Ecuador) will be designated from among the Economic Advisers and Program Advisers in the Department. Expected requirements of staff from outside the Department include three general economists from the Economics Department for Brazil, and three economic specialists from the Economics Department and/or Projects Department for Mexico. One or two sector specialists may be needed for the missions to Venezuela and Peru, but it is too early to specify the requirements precisely.

Forms for the new missions are attached. The mission included in our last forecast for Uruguay has been taken out of the list in view of the extreme uncertainty surrounding the situation in that country; it might be rescheduled for some time in the first half of 1969, but this is rather unlikely. One or two members of the recent mission to Jamaica will still be returning to that country at some stage for further discussions, but it is not clear when.

Forecast of Economic Missions and Economic Documentation

August 29, 1968

1. In reply to your request, we forecast as follows the approximate timing of the distribution of economic documents under green cover:

<table>
<thead>
<tr>
<th>Country</th>
<th>Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bolivia</td>
<td>November/December, 1968</td>
</tr>
<tr>
<td>El Salvador</td>
<td>January, 1969</td>
</tr>
<tr>
<td>Panama</td>
<td>January/February, 1969</td>
</tr>
<tr>
<td>Paraguay</td>
<td>December, 1968/January, 1969</td>
</tr>
<tr>
<td>Peru</td>
<td>October, 1968</td>
</tr>
<tr>
<td>Uruguay</td>
<td>March, 1969</td>
</tr>
</tbody>
</table>

There will be no green cover report or memorandum on Guyana.

2. We are unable for the moment to make a meaningful forecast of missions beyond the end of the current calendar year for the reasons I indicated in my memorandum of August 26 to Messrs. Adler and Kamarck.

Africa Department – Expected Economic Missions  

September 1968 – June 1969

1. In the memo from Mr. Larsen to you of August 23, 1968 on the above-mentioned subject, we did not list a special mission to Dahomey tentatively scheduled for September. The mission will deal with a few special financial issues, raised in the last economic report, and it is expected that a back-to-office report will be sufficient to answer these questions.

2. In regard to your request for a list of any expected economic memorandum, which would go into green cover, resulting from a desk study rather than a mission, it is impossible to predict this possibility at this time. As to your request for the scheduled production of any green cover report regardless of whether or not they will be considered by the Economic Committee or the Board, the best information available in the absence of both Mr. Larsen and Mr. Westebbe, the author, is that the Mauritania report will be in green cover in September. As no operations are in sight in Mauritania, it has been decided to distribute this report only within the Bank for information.

Economic Missions

We have reviewed the attachments for Division A/C in the light of your memorandum of August 5, 1968 on the above subject.

Taking into account the three considerations set forth in your memorandum, I list below a revised list of proposed economic missions for 1968/69 and 1969/70, in which I have underlined the changes:

Economic Missions

Kindly refer to your memorandum dated August 5, 1968 on the above subject.

Missions set out in the schedule are adequate except in the case of Sierra Leone. It may be useful to have a mission to Sierra Leone some time in May-June 1969 to review the performance of the new government prior to the Board presentation of the highway loan credit which is now scheduled for September 1969.

Mr. Hussein will be on home leave from late August to the end of September. The Nigerian mission is expected to be more likely in October so there will be no clash with Mr. Hussein's leave.

The Nigerian mission of 1968 will require a transportation specialist, and the Ghana mission of 1968 will require an agriculturalist. We have already alerted Projects of these requirements. It will be desirable to have a transportation expert in the Liberian mission of 1968, and possibly an education expert in the proposed Sierra Leone mission of May-June 1969.

It is too early to forecast the requirements of sectoral experts for other missions in 1969.

cl. with: Messrs. Hammel
Hussein
Reference your memorandum of August 5, the following are the answers to your questions.

1. **Schedule of Missions**

   In the light of information just received from Kenya, the economic mission to Kenya should be rescheduled to April/May 1969.

   We have not yet had a formal reply to our letter to Tanzania, but from my discussion with Mr. Kaduma it would appear better to temporarily reschedule the Tanzanian economic mission to March 1969.

   With regard to Uganda, it was decided at the recent meeting on the future of the Consultative Group for East Africa that there should be a meeting of the Consultative Group to review progress in Uganda's current development plan during the second half of 1969. The economic mission to Uganda will, therefore, have to be brought back from February 1970. The question is by how much? Unless it were brought right back to before the budget, it would not be practical to send the mission before September. If the mission were to go in September, it is doubtful if the Consultative Group could meet before February 1970. If this is considered too late, I would suggest that the mission be brought back to March 1969, the same time as the Tanzanian mission. This might have the advantage of economizing on sector specialists. On the other hand, unless this division receives an additional economist by then, either the Tanzanian or Ugandan Missions would not have one of this division's economists on it, which would be a pity.

2. **Home Leave**

   Mr. Krishna is on home leave at present and I am due for home leave next summer. Neither the original nor proposed new schedules would clash with my home leave.

3. **Sector Work**

   For the last economic mission to East Africa, we had sector specialists in Agriculture, Industry, Transport, Tourism, Power, Education and Agricultural Education. Clearly there is no need to cover all this ground again. One of the pressing problems in both Kenya and Tanzania, which was discussed at the London meeting of the Consultative Group, is "coordinated rural development". The missions should examine this aspect in some detail. The difficulty is that it cuts across several disciplines - agriculture, education (including new educational media), rural industries, rural credit, local government, etc. - and is an extremely difficult and complicated subject. There are few people with any worthwhile experience in this field, but we might be able to recruit a consultant for the missions.
The missions to all three countries should pay more attention to population problems, and I think it would be advisable to cover tourism in some depth again. Uganda has made little progress in agricultural diversification. Arising out of the Consultative Group meeting in Paris, it was established that housing is a serious impediment to development in Uganda. Mr. McNamara has commented on this aspect and requested we pay special attention to it.

To summarize I suggest the following:

Kenya and Tanzania - Coordinated Rural Development
Agriculture
Tourism
Population

Uganda - Agriculture, particularly diversification
Tourism
Population
Housing

Population could probably be handled by the general economist(s), and road transport for Uganda might be handled by somebody in PMEA.

Economic Committee Secretariat's Publication Entitled, "Expected Economic Missions"

1. I should like to bring to your attention the above-mentioned document, which is issued monthly by the Secretariat of the Economic Committee, and which at present, gives details only of missions scheduled to take place in the forthcoming six months.

2. The aim of this document would seem to be to keep the Management and the Departments of the Bank informed, and to serve as a basis for manpower planning in the Departments. However, it appears to me that this document would serve both of these objects better, if it were broadened to include details of economic missions which have taken place in the past six months as well, with a breakdown showing the personnel supplied by each Department. It might also be useful if a note were included explaining why missions previously scheduled had not taken place. All this information could be presented in tabular form. The proposed additional information would be of assistance to both Management and Departments in formulating future plans and policies for each individual country.

Economic Missions

Would you please let me know by Wednesday, July 10, 1968, to which of the countries in your Division economic missions will have to be sent in the first three months of 1969; what briefly their purpose will be and whether their reports will be related to specific lending operations or meetings of Consultative Groups or Consortia.

Schedules and Back-to-Office Reports of Economic Missions

I would appreciate it if you could arrange to have sent to me on a routine basis in the future, the schedules of planned economic missions and copies of the back-to-office reports of these missions for countries in our area as well as the formal reports which we already receive. It would be helpful to receive these for all countries of Africa, Asia and the Middle East, since occasionally we are involved in examining operations in countries which are members of IBRD but not yet of IFC.

Forthcoming Economic Missions

The next monthly report on forthcoming economic missions is due on April 25. It will cover the 6-month period May through October 1968.

I would appreciate your letting me know by the close of business on April 23 (a) to which countries you propose to send economic missions that have not been previously reported. (b) What changes, if any, have occurred with respect to missions covered in the last monthly report.

Expected Economic Missions March-August 1968

In our Division, two additional country economic missions will have to take place before the end of August 1968, namely:

(1) Malaysia, starting about mid-July for 4-5 weeks in order to review economic policy and progress particularly in relation to the current development plan (for the next Consultative Group Meeting). Apart from the Head of mission who should be of the level of an Economic Adviser, there should presumably be two more economists (preferably from this Division so as to maintain continuity and to ensure sufficient background knowledge for subsequent CG meetings), plus a few sector specialists, say altogether about six people.

(2) Indonesia, starting sometime later this summer for 5-6 weeks to review economic policy and progress, in particular in relation to the plans of the Government for rehabilitation and development in 1969 and possibly subsequent years (to provide inter alia a basis for "project assistance" by the HGI meeting to be held before the beginning of 1969). The composition of this mission will have to be quite similar to that of the last Indonesian mission. The Chief of mission will have to be an Economic Adviser assisted by a few general economists including the economist responsible for Indonesia in the Area Department and by the necessary sector specialists in agriculture, industry, power, transportation and telecommunications. As to the precise timing of this mission, this will have to be discussed further with Mr. McDiarmid after his return. There is a firm promise of Mr. Gargill to the Indonesians with respect to this mission.

* Firm Commitment

1/ Precise timing subject to congressional action on new tax measures.

2/ The mission will make a special study of the industrial sector.

3/ The timing of the mission is linked to the next lending operation.

**NOTE:** The mission to Hong Kong which was tentatively scheduled for March/April 1967 to make a basic reassessment of the economy has been temporarily suspended. A reconnaissance mission consisting of Mr. Jansen will visit Hong Kong in March 1968 to determine whether the mission originally planned to reappraise economic prospects is warranted. Mr. Jansen will also participate in the introductory stage of the China mission.

(cont'd)
NOTE: Special missions are planned for Nepal and India. Mr. Gilmartin's visit to Nepal is tentatively fixed for February 1968 to discuss development policy and planning. Messrs. Elz and Varone will visit India for three weeks at the end of February to examine the export prospects of a number of commodities.

The mission to Pakistan is in the field.
